The Mandate

1. Policy Advice and Communication

- EENEE aims to contribute to the improvement of decision-making and policy development in education and training in Europe by advising and supporting the European Commission in the analysis of economic aspects of educational policies and reforms.

2. Knowledge Dissemination

- EENEE sets up an easily accessible information device for policymakers, journalists, and others interested in the economics of education in Europe, hoping to contribute to a high-quality coverage and to well-funded knowledge on the topic among the European people.

3. European Research Area in the Economics of Education

- EENEE is dedicated to creating an exchange platform for education economists in Europe, establishing centres of excellence on economic aspects of education, and creating a true European research area in the economics of education.

The Concrete Tasks

— *Commissioned by the European Commission* —

1. Providing Advice on **Concrete Questions** of the European Commission on an Ad-hoc Basis
2. **Mapping** of Researchers on Economics of Education in Europe (and Beyond)
 - List of more than 300 Education Economists in Europe!
 - Experts searchable by country and area of expertise, accessible at:
3. Setting Up and Maintaining a **Website** on Economics of Education in Europe (www.education-economics.org)
4. Organising European **Symposia** on Economics of Education
5. Developing a Proposal for a **Work Programme** on Economics of Education
